

BE A RECRUITER

A recruiter is an important function in any business or movement. By finding people and placing them into a particular role, one can accomplish many times what one would have if that person simply settled into one role. Perhaps you do not feel comfortable canvassing, joining the GOP, calling congressmen... you can still help, and in a much larger way. Instead, as Steve Bannon likes to say, be a force multiplier!

3 OPPORTUNITIES TO BE A RECRUITER

PRECINCT COMMITTEEMEN

In the Hernando County Republican Party, currently there are 202 Precinct Committeemen positions open. We need an army of recruiters to seek out America First individuals to fill these positions. As stated on Dan Shultz's Precinct Strategy website, (precinctstrategy.com) the office of precinct committeeman ("PC") has been called "the most powerful office in the world." "Precinct committeemen are the "elite" of the political parties – parties do not exist without them and fewer than one in one hundred political party members can be a voting member of the party." There are videos on Dan's website to learn about the precinct strategy. Here is a link to a detailed guide on how to be a Precinct Committeeman in Hernando County, as well as a list of precincts and openings: [Hernando County Precinct Doc](#)

If you're not in Hernando, put together the precinct information for your county, and actively fill the positions, as well as seek out other recruiters to assist.

AUDIT FLORIDA

We all know there was massive fraud in this past election, and beyond. There is currently a push to audit every state in the Union. Here is a document that details how to get involved in the push to audit Florida: [Florida First Audit](#)

Encourage and help others to download Telegram and join the @FLAuditChat chat group.

Within the main group, there are opportunities to join one of four groups organized to push the movement along: the FOIA group, Documents Group, Research Group, and a Communications Group.

If you know people outside of Florida, the @AmericaFirstAuditsChat will guide people to their state chat.

CANVASS FLORIDA

One of the main tools used in election fraud is the registration database. This can be better understood by watching the videos by Dr. Douglas Frank posted on this webpage: [How the Election Was Stolen](#)

There is an effort by [Defend Florida](#) to canvass Florida. Groups of canvassers are already out in counties all over Florida. Hernando is about to commence. Canvassers are not walking up and down streets looking for bad voter registrations. There has been data collected and analyzed and specific addresses are targeted. Here is a [form to sign up](#) for canvassing. Once one fills out the form, the person will be contacted to join two online meetings for training. If you don't know if you will feel comfortable canvassing, get the training so you can actively recruit others.

BE A FORCE MULTIPLIER: START RECRUITING!
